**FISH VS. TUBERCULOSIS.**  
**Sufficiency of Protein in Food Will Resist Disease.**  
New York, Dec. 30.—"The campaign against tuberculosis might be greatly aided by an abundant supply of cheap fish," this theory is advanced by Sir J. Crichton-Browne in the Medical Record of this city. "Power of resistance to the disease is an important factor in its prevention," he says. "And that power is lowered by poverty in its many phases and conspicuously by poverty in food, especially by nitrogen starvation, as it is called or any insufficiency of protein in the nutrient supplied. 'Little emphasis is needed to prove that if the sick poor were better fed their powers of resistance to tuberculosis would be greatly strengthened. Therefore the argument that to render fish foods, rich in protein, accessible to the very poor would be to take a long step toward the abolition of tuberculosis."

**SEEK LAND LEGISLATION.**  
**Western Congressmen Want Appeals to Interior Department.**

Washington, Dec. 30.—Western representatives in congress are planning to obtain action at this session on the bill which the house committee on public lands has reported favorably for providing appeals from the interior department to the court of appeals of the District of Columbia on land cases. Chairman Mondell, of the committee, will try to get early action by the house if the opportunity presents.

It is claimed that the bill, which affects a large number of cases, would remedy the abuse of contradictory rulings on land questions and remove objections to the exercise of quasi-judicial power by an executive department charged with administering the law.

**SIGNS CAPITAL BILL**  
**While Sitting on a Stool in a Railway Eating House.**

Guthrie, Okla., Dec. 30.—Gov. Charles N. Haskell affixed his signature to the state capital bill while sitting on a stool in a railroad eating house in this city. The bill, which was passed at a recent special session of the legislature, locates the capital at Oklahoma City. Shortly after 6 o'clock the citizens of Oklahoma City had met the requirements of the governor that \$71,250 be raised before he signed the bill, and immediately he took a train for this city. The governor swung off the train and stepped into the eating house where he ordered a hearty dinner, and just to give zest to the meal signed the bill.

The bill was then handed to Assistant Secretary of State Leo Meyer, and the governor boarded a waiting train and was rushed off to Oklahoma City.

The Kokummei says the intimacy between Russians and Japanese in Manchuria is having a serious effect upon the Chinese and that anti-Japanese and anti-Russian sentiment is increasing.

When the maneuvers of the Japanese troops in Manchuria were being arranged in November, Chinese officials sent troops to the scene and only through tact on the part of the Japanese was this force withdrawn.

### DYNAMITE WRECKS STORE.

Ten Other Houses Damaged By Alleged Black Hand Society.

Detroit, Mich., Dec. 30.—A grocery store owned by Jim Mano, at 285 Clinton street, was wrecked by two dynamite explosions, and ten houses in the neighborhood were damaged. Ten men, a woman and a little baby were sleeping on the second floor of the store, but escaped unhurt. They were thrown from their beds. The explosions, which followed each other in rapid succession, could be heard a great distance, and the residents in the vicinity were thrown into a state of high excitement.

Several sticks of dynamite with half burned fuses were found near by.

Mano says he believes that Italian enemies of his are responsible. He had litigation in the courts lately, coming out victorious.
